The cab situation in Greenville is terrible. Since Uber started in Greenville we have been able to utilize downtown, events at the Peace Center and Bon Secours arena. Greenville needs Uber!

Sincerely,
Charlene McLoughlin

Greenville needs Uber. Our taxi services are lacking for a city this size. By shutting down Uber the number of people needing public transport will increase and the current infrastructure can't handle it. Not to mention the number of people that could possibly attempt to drink and drive since they can't get an Uber home. Do the right thing for the people of this state and not what's best for your pocketbooks.

We think Uber is a great service. We should be able to use the transportation of our choice. It is safer than a taxicab as has a better tracker service

I hate representing clients in felony DUIs. I tell everyone I can to use UBER, particularly my friends that have kids in college. UBER is everywhere in America. Figure it out. Beattie Ashmore. Greenville SC.
